

DR. A. L. SMITH

August 18, 1926.

New Brunswick Physician

TESTIFIED (pages 607 et seq.):

Took part in both autopsies at the request of Prosecutor Stricker. Dr. Hall's autopsy in Brooklyn on October 5, 1922 (607).

Bullet wound in Dr. Hall's head. Entered on top of right side in the hair, came out at the hair line back of his neck. (608)

Bullet not in head (608).

Fingers and hands scratched. Mark on outside right ankle as if he had stepped on a sharp stick (608).

Mrs. Mills' autopsy September 29. Hubbard's morgue, New Brunswick (609).

Found three bullet wounds and cut throat. No marks around bullet wound in forehead. (609) Bullet wound in the outside angle of eye and one in the temple, right side (609).

Mark on lip was not a bullet wound. (610).

Got all three bullets (610).

No other marks on Mrs. Mills except surgical abdominal incision. (610)

Could not identify bullets which were given to Detective Totten (611).

Three bullets offered for identification. Bullets said to be 32 calibre (612).
